117-118-119 Labs

The PHYS 117-118-119 introductory physics sequence is targeted for students majoring in life sciences taking the associated courses in the PHYS 114-115-116 sequence that would like to take a lab course, or if your major requires the associated lab course.

PHYS 117

- **Prerequisites:** PHYS 114 which may be taken concurrently.
- **Contents:** Mechanics

PHYS 118

- **Prerequisites:** PHYS 115 which may be taken concurrently.
- **Contents:** Thermodynamics, fluids, electromagnetism

PHYS 119

- **Prerequisites:** PHYS 116 which may be taken concurrently.
- **Contents:** Waves, physical optics, geometric optics, atomic physics, nuclear physics

Grading Standard

The course is graded on the credit/no credit basis.

Department of Physics
University of Washington
Physics-Astronomy Building, Rm. C121
