PHYS 331 A: Optics Laboratory

Meeting Time: F 11:30am - 12:20pm

Location: PAA A110

SLN: 20385

Instructor: Xiaodong Xu

Catalog Description: Measurements of interference and diffraction, optical properties of matter, image processing, interferometry, holography. Prerequisite: a minimum grade of 2.0 in PHYS 227; and PHYS 321, which may be taken concurrently. Offered: A.

GE Requirements: Natural World (NW)

Credits: 3.0

Status: Active

Section Type: Lecture

Last updated: March 24, 2020 - 9:22pm
