Lecture Demos: Table of Contents

Request Lecture Demonstrations

The best way to request lecture demonstrations for your class is by emailing Lecture Demo Staff (a mailing list that goes to both John and Steven). Phone calls aren't recommended because we don't listen to each other's voicemail. If one of us is out, the other may not get your request in time for your class (if at all). Making requests in person during the ten minute break is also discouraged because we're busy setting up for the next class.

Use the Table of Contents below to quickly find a demonstration that would enhance an upcoming lecture.

Table of Contents

1: Mechanics
2: Fluid Mechanics
3: Oscillations and Waves
4: Thermodynamics
5: Electricity and Magnetism
6: Optics
7: Modern Physics

View the complete demonstration list on a single page.
