Study Center

The Study Center is intended as a place for students to work cooperatively on Physics problems.

Students should note the class-specific signs above each table and find other students who are enrolled in the same course so that they can work together.

TA's are available on a limited basis to assist groups of students who get stuck on a particular issue. TA's will circulate from table to table as to provide limited help to as many groups of students as possible.

Location and Hours

The study center is located on the lower level of the Physics Astronomy Auditorium building.

Go down the stairs to the right of the Foucault Pendulum and straight down the hall to Rm. AM018!

**TAs available in Study Center, M-F 9:30am-4:30pm**
